

## Services For Education

Health for Life is delivered in Primary schools by Services For Education and in the community by The Conservation Trust.

The programme supports Change4Life and offers a range of opportunities to encourage families towards leading healthier lifestyles and works in partnership with Life Education Centres, Birmingham Adult Education Service, Sport Birmingham, Run Birmingham, Let's Get Cooking, Grow to Learn, the Conservation Volunteers and more.

By working with lots of schools we are able to share good practice and give you lots of ideas and support.

The programme is funded by Mondelēz International.
